

## Risk and Compliance Software

RILIANCE is a web based risk and compliance system for the legal market. Its primary aim is to ensure all firms that have to comply with new and existing SRA/OFR regulations have a system in place that instils a robust risk and compliance structure to the firm's day to day operations.

What does RILIANCE do?

Helps you reduce your firm's exposure to indemnity claims and referrals to the Solicitors Disciplinary Tribunal.

Reduces the amount of COLP management time required to ensure your firm is compliant.

Helps you show that your firm has an active risk and compliance culture.

Provides essential risk and compliance management information.

Gives instant access to relevant parts of the SRA Code of Conduct, Lexcel standard, money laundering regulations and other useful compliance links.

What does RILIANCE cover?

Referral Arrangements – Complaints Handling – Claims Handling – Money Laundering Reporting – File Auditing – Risk Register – COLP and COFA reporting.
